Featured Crystal: Aura Quartz

The featured crystal in this month’s newsletter can’t be found in nature. Wait, what? If you know me, I’m big on only using natural crystals that have not been dyed or heat treated in my wire work. So why would I use a crystal that is not natural, let alone feature it in a newsletter? It has to do with how the aura crystals are created, so keep reading.

Aura quartz are created through atomic vapour deposition. Natural transparent quartz crystals are placed in a vacuum chamber, and then heated to 1,600°F. Vaporized metal, such as gold, silver, titanium, copper, etc. are then pumped into the vacuum chamber where they fuse with the quartz at an atomic level. Once fused the metal changes the quartz crystals to very vibrant and iridescent colors. In addition, the infused metal enhances the energy of the quartz with whatever properties of the metal it was infused with.

Just how many types of aura quartz are there? Quite a few, plus new ones are being created. Some of the formulas used are so secret that only the original creator has the exact formula. Let’s take a look at some of the aura quartz.

Champagne Aura

- ◆ Angel Aura Quartz: Quartz + Silver & Platinum, creates a pearly, rainbow iridescence.
- ◆ Aqua Aura Quartz: Quartz + 24ct Gold, creates a iridescent pale blue color.
- ◆ Champagne Aura Quartz: Quartz + 24ct Gold & trace metals, creates a champagne colored iridescent crystal.

Sunset Aura

- ◆ Cobalt Aura Quartz: Quartz + Cobalt, creates a vibrant iridescent blue, purple, with gold undertones.
- ◆ Flame Aura Quartz (aka Rainbow Aura or Titanium Aura Quartz): Quartz + Titanium & Niobium, creates a vibrant jewel-toned iridescent crystal.

Sunshine Aura

- ◆ Rose Aura Quartz: Quartz + Platinum & trace metals, creates a soft to vivid magenta iridescent crystal.
- ◆ Sunset Aura Quartz: Quartz + Titanium & possibly Silver and Silicon, creates an orange, yellow and magenta iridescence.

Tangerine Aura

- ◆ Sunshine Aura Quartz: Quartz + Gold & Platinum (possibly Titanium), creates a pale yellow with iridescent rainbow flashes.

Tanzanite Aura

- ◆ Tangerine Aura Quartz: Quartz + 24ct Gold & Iron, creates an orange, iridescent crystal.
- ◆ Tanzanite Aura Quartz: Quartz + Gold & Indium and trace metals, creates a blue tanzanite colored crystal with subtle iridescence.

Each crystal retains the quartz vibration and healing definition, plus they get the added healing definition of the metal that has been bonded to it. Think of it like supercharged quartz. Here is a list of the healing attributes of quartz according to "The Crystal Bible," by Judy Hall.

"Quartz is the most powerful healing and energy amplifier on the planet because of its unique helical spiral crystalline form. Found worldwide, it absorbs, stores, releases, and regulates energy and is excellent for unblocking it. When acupuncture needles are coated in Quartz, the effects increase by ten percent. As demonstrated by a Kirlian camera, holding a Quartz crystal in your hand doubles your biomagnetic field. It enhances muscle testing and protects against radiation. Quartz generates electromagnetism and dispels static electricity.

This crystal works at a vibrational level attuned to the specific energy requirements of the person needing healing or undertaking spiritual work, it takes the energy to the most perfect state possible, going back to before the dis-ease set in. It cleanses and enhances the organs and subtle bodies and acts as a deep soul cleanser, connecting the physical dimension with the mind.

At a spiritual level, this crystal raises energy to the highest possible level. Containing every color possible, Clear Quartz works on all levels of being. Storing information like a natural computer, these crystals are a spiritual library waiting to be accessed. Quartz has the ability to dissolve karmic seeds. It enhances psychic abilities and attunes you to your spiritual purpose. Used in meditation, Quartz filters out distractions. Quartz is the most efficient receptor for programming.

At a mental level, Quartz aids concentration and unlocks memory.

Quartz is a great energy saver. Attached to a fuel line in a car, a Quartz point reduces fuel consumption.

Quartz points have different facet shapes according to how fast they formed. These shapes are deeply significant.

Quartz is a master healer and can be used for any condition. It stimulates the immune system and brings the body into balance. It is excellent for soothing burns. Quartz harmonizes all the chakras and aligns the subtle bodies."

Now add the healing properties of each metal, and voila you have an aura quartz.
